People-friendly solutions.

Printronix introduces their NEW series of Line Matrix Printers!

FLEXIBLE DESIGN

Printronix modified its industry-leading line matrix technology to address evolving user requirements.

-**Modular Enclosures** occupy a smaller footprint while delivering location and installation flexibility

-**Sheet metal construction** for increased durability and better acoustics

-**New user interface** with larger LCD screen, graphical display and intuitive menu navigation

-**Remote printer diagnostics** let you monitor printer status and remotely configure settings & firmware

ADAPTABLE FUNCTIONALITY

The **P8000** Cartridge series adapts to almost any supply-chain or back-office environment.

-**More models** to fit your unique requirements including the new Tabletop Printer

-**USB 2.0** and Serial connectivity included as standard features. Parallel & Ethernet available as options

-**PowerPrint**™ delivers improved print quality and print darkness on multi-part forms by increasing impact enery. Comes standard on P8000 printers with a 1,000 line-per-minute print speed

MANAGEABLE SAVINGS

The **P8000** Cartridge Printer is a smart and cost-effective purchase.

-**Lowest cost of ownership** of any print technology

-**Durable design minimizes** downtime related to unfavorable environmental conditions

-**Backwards-compatible cartridge ribbons** reduce inventory management costs

-**Energy efficient technology** lowers idle power consumption and boosts operating efficiency
